

ITEM 5.0.0 | SECTION 5 INTRO

The Florida Courts Technology Commission ("FCTC") adopts this Functional Requirements Document ("FRD") to provide specifications for Court Application Processing Systems ("CAPS") to coordinate the use of information technology and electronic case files, in court and in chambers, by trial court judges and staff. In addition to the functional requirements outlined in this document, systems must comply with applicable Florida Rules of General Practice and Judicial Administration, and other technical and functional standards established by the Court that may apply to CAPS.
