

ITEM 5.4.1 | CALENDARING SYSTEM REQUIRED

A system must include a planning and calendaring function that permits the court to allocate blocks of future time for specific purposes, that permits the court or authorized other persons to book specific hearings or other events into allocated time, and that displays or prints the schedule for a day, week, or month with the appropriate level of detail. Each schedulable block and event must also be able to be canceled by an authorized person as determined by the presiding judge/magistrate.
