

ITEM 5.5.4 | CASE INFORMATION

A Case Information display must contain at least:

5.5.4.1

Basic Case Information and appropriate subsets of the events scheduled in the case and of the clerk's progress docket.

5.5.4.2

Controls that call:

- the full progress docket;
- display of detailed information including a search for related cases on a party, attorney, witness, or another participant;
- an e-mail window pre-addressed to all the parties or attorneys in the case;
- a button that opens the scheduling function (and remembers the current case);
- a control that opens the list of orders that the system can generate; and
- a search window permitting single word and multiple word searches of the searchable electronically filed documents in the case, returning a subset of the progress docket containing the search terms.
