

#### ITEM 6.5.5 | BEST PRACTICES

Best practices related to the security and integrity of data stored in the cloud should be followed either by practice (as identified in proposed cloud migration plans) or by contractual agreement. These include, but are not limited to:

- Any agreement should include a clause prohibiting the use of court data for any use without the express written consent of the governing jurisdiction.
- Any agreement should include a clause requiring law enforcement to work through the custodian of the record when requesting access to records rather than direct access.
