

SECTION II | ACCESS SECURITY MATRIX

The Access Security Matrix (the “Matrix”) governs access to electronic court records based upon user roles and applicable court rules, statutes, and administrative policies. The Matrix performs the following functions:

1. Establishes user groups;
2. Establishes access levels; and
3. Assigns access level for each user group based on case type.

The Access Governance Board (“the Board”), under the authority of the Florida Courts Technology Commission (the “FCTC”), is responsible for maintaining the Matrix by timely incorporating legislative and rule changes that impact access to electronic court records. Access permitted under the Matrix applies equally to electronic and paper court records.
