

SECTION XIII | PERFORMANCE

Search parameters for web-based access to electronic records will be limited to the following:

A. User Role 7 (General Public)

1. Case type;
2. Case number;
3. Party name;
4. Citation number; and
5. Date range.

B. Other user roles with authenticated users may have more robust search features than general public users.

Non-confidential data or data accessed by an authenticated user may be viewed immediately. Some images may be "viewable on request" to allow time for the redaction process.

Online access to documents stored as images may be provided. Documents stored as images are "view only." If a requested document is maintained by the clerk in a searchable format, the document may be provided to the public in that format, but only in response to a specific request. Search capability, if available, will be limited to such requested document and must not support automated bulk searches.

Only authorized automated search programs, to be used solely on the indices, shall be used with the court's electronic public access system. Automated search programs may not be used on any other component of the court's electronic public access system. The court and clerk will determine the criteria for authorization of any automated search programs. Such authorization may be revoked or modified at the discretion of the court and clerk.
